

## About PetMassage for Kids™

In the **PetMassage for Kids™** program, children learn basic hands-on skills of canine massage and principles of dog handling safety. Children learn the basic handling, touching, holding, stroking, and other PetMassage techniques. Confidence grows while their attention moves to their breathing patterns and their heightened awareness of their dog's possible responses to their presence and touch. Kids learn that their body language, facial expressions and even their thoughts can have powerful influences on others, especially their dogs. Everyone soon sees that PetMassage is a lot more than just rubbing and petting dogs!

Children develop important psycho-social skills while learning and practicing PetMassage™

- body language awareness
- control
- patience
- and empathy

**PetMassage for Kids™** is the only course that encourages children to appreciate and apply PetMassage™ skills to bond with and help their dogs stay fit and healthy. The three texts are the book, "Dogs Kids PetMassage," the DVD, "PetMassage™: A Kid's Guide to Massaging Dogs," and the audio CD, "PetMassage Doggie Songs for Kids."

"Dogs Kids PetMassage" is an enjoyable read for the children, teachers, and the parents who learn with them. The 128-page, "Dogs Kids PetMassage" book, has abundant photographs on every page and easy to follow instructions. In it, two children have a private lesson at the PetMassage™ Training and Research Institute, with Mister Jonathan (Rudinger). Follow two children as they learn, step-by-step, how to provide PetMassage to their stuffed dogs and also their real dogs. "Dogs Kids PetMassage" is the perfect complement to the 55 minute DVD, "PetMassage™: A Kid's Guide to Massaging Dogs," in which several children take a PetMassage™ workshop to learn a simple version of a full body canine massage.

In the DVD, the workshop lessons are reinforced when two of the children schedule a private review session and it concludes with a lively round table discussion with dog puppets. **The DVD Bonus menu** items include History of PetMassage, Study Guides of the PetMassage Form, Benefits of PetMassage, Contraindications, and more.

In the **PetMassage for Kids™** courses, for safety, confidence building and liability reasons, children learn and practice only with their stuffed dogs. They can practice with their real dogs when they are at home.

The "PetMassage: Doggie Songs for Kids," audio CD presents many original songs, each of which can be used for discussion, learning, and group expression. These are the titles: *Thank You for My PetMassage*, *On My Face*, *Where Did I Put My Tail?*, *Head Withers Stifles Toes*, *Wag Your Tail*, *What Do You Do To Do What You Want To Do?*, *Walk to Me Curvy-Swervy*, *Respected*, *Sometimes*, and, *No Grabbing*.

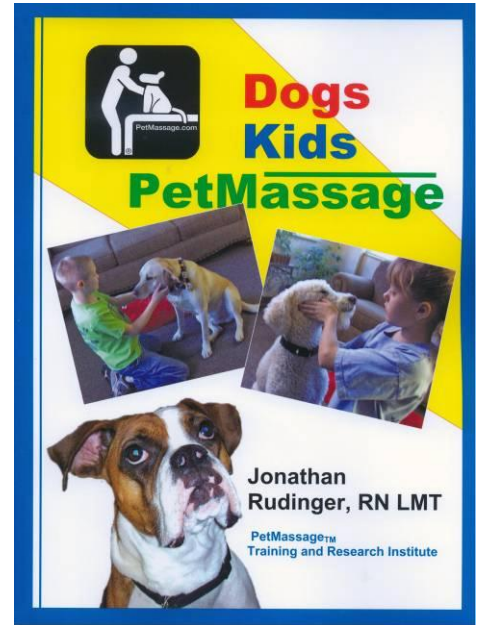

The fourth part is the skills merit patch. A separate program was developed by PetMassage working with the Girl Scouts of America® Maumee Valley Council, which allows Girl Scouts to earn the *PetMassage* skills merit patch. Your students are eligible to earn the Official PetMassage patch too, when they complete Ten-week after-school or Five-day summer **PetMassage for Kids™** courses.

Make **PetMassage for Kids™** the foundation for your fun and educational home school, after school, summer school, and camp activities. Consider the possibilities!
